

Jackdaw news

Yet another busy week at Jackdaws. We have begun to map out our story in Sandy Cove with a focus on how openers and conjunctions can really make writing come to life. In maths we have continued with place value and ordering 4 digit numbers.

The Tag Rugby event was brilliant. The team from Jackdaws; Noah, Evelyn, Hollie, Maggie, William and Ashton had a great day learning the skills of the game, but more importantly how fun it can be.

In topic we are learning about the different eras of the stone age period: Mesolithic, Palaeolithic and Neolithic. We have also created some excellent art with the help of Mrs Holgate, inspired by drawings from the stone age.

I would also like to add an extra comment about swimming. Speaking with the coach, he told me he has never taught such a driven and attentive class. He said he was very impressed by them and I thought I'd share this news with you. Well done Jackdaws.

Finally, in science we have been looking at the four key food groups for a balanced diet, Protein, Carbohydrates, Fibre and Fat. I've asked the class to take photos of their meals and e-mail them to the school so we can work out which food fits best into which group.

Next week.

Monday should be a really exciting day as we launch GR8 AS UR where we celebrate the uniqueness of ourselves. As part of this we would love to see the children where whatever they feel makes them happy. I may well wear my sombrero.

Adios
