

Jackdaw news

As ever, it's been busy, busy, busy in Jackdaws. We have completed our story based around Sandy Cove and I have been really pleased to see children developing a clearer knowledge of how and when to use paragraphs. I am also pleased to see the class using fronted adverbials, contracted and possessive apostrophes and editing their work. Watch out for missing full stops though. Think, when do I need them and how can I find them?

In maths, we come to the end of our addition and subtraction lessons (though they will be ever-present in our other work) and will be moving on to multiplication and division work. Please keep up with Timestoo homework (30 minutes/ week or more if you like)

In Science, we have begun to explore rocks. If you happen to spot any sandstone or chalk, it would be great if we could have it as it will help with our investigations next Thursday.

Also, a big thank you for all the money raised for Children in Need. It will make a big difference for so many. Thanks again.

Next week:

Swimming: Can Group 2 please bring in a pair of trousers for next week's lesson on Wednesday? They must be light weight so no jeans or jogging bottoms. Leggings/ jeggings are not ideal either as they will be hard to remove.

Natural History Museum Trip:

Next Friday will see us heading off to London for an exciting trip to the Natural History Museum. We will be departing at 6:15 sharp so please aim to be here for 6:00 am. The children will need two pack lunches and some entertainment for the journey, (sorry, no electronics). Please ensure that children have any required medication (asthma inhalers etc). Thank you.
