

Jackdaw news

So we come to the end of another half-term and as usual it has been a busy one.

We covered decimals and fractions in maths, whilst keeping the four operations ticking over with daily Fluent-in-5 sessions; all of which have helped to develop the children's mathematical knowledge.

Literacy saw us explore the Quest tale genre (think The Hobbit). We utilised the ancient Greek story of Medusa and produced some excellent examples.

Science saw us explore the nature of forces and surfaces and we had fun working out what is and what isn't magnetic. We also used elastic to see what impact friction had on movement too.

Topic has focussed on Anglo-Saxon settlement in England and we had a wonderful if cold trip to West Stow to experience what it may have been like to live as an Anglo-Saxon. We have also been enjoying Beowulf and noticing the similarities between it and the Medusa tale.

Music has really seen the class develop their skills. They can now play George Ezra's Shotgun and we may plan a performance at the end of term to show you how much they've come along. BTW I promise I won't sing!

Next week:

Next week sees us return to some work on multiplication noting the patterns of multiplying and dividing by 10, 100, 1000.

Literacy sees us take the Medusa story and turn it into a news article.

Science will see us look at plants and their requirements for growth and in Topic we get invaded by Vikings, (should be fun!)

Have a great half term

Mr Johnston.
