

Kingfishers Newsletter

Monday 30th September

Last week we were learning...

Maths:

We started our unit on addition and subtraction with a game called maths, paper, scissors! We also looked at the difference between two single digit numbers.

Literacy:

We have been editing our diary entries and writing up our final versions.

Science:

We thought about the suitability of different materials based on their properties.

History:

We thought about the first astronauts and the dangers they faced. We thought about the different equipment we would need to protect ourselves in space.

Monday 30th September

Next week we will be learning...

Maths: we will be continuing our unit on addition and subtraction

Literacy: we will be looking at imperative verbs and how to use them for instructional writing

Science: we are going to test materials for the suitability to make rocket mice

History: we will be researching the life of Katherine Johnson and her amazing contribution to the space race.

Reminders

Spellings will come home on a Friday and the test will be the following Friday. Please make sure books come back into school on test day. (to collect a dojo!)

Reading records should be handed in whenever books need changing but we would ask that books are **always handed in on a Wednesday** so we can check that children have read at least three times that week (and they can collect a dojo)!

Please record anything they are reading; home books, magazines etc It all counts!

Homework. Please could books come back in on Monday mornings please.

****PARENT LUNCH****

Wednesday 16th October

Forms are being sent out this week
