

Jackdaws News

So what have we been up to over the past week?

Literacy: We have reached the end of The Ice Palace which I am delighted to say really caught the imagination of the class. It culminated with our very own quest tale using speech punctuation, powerful verbs, adverbs and adjectives. On Friday we went outside and read some of the examples of work around a small fire which the children helped to construct.

We talked about the dangers of fire and how we always need an adult present when we are by a fire. The children were fantastic and very sensible.

Maths

We have moved onto working with decimals, noticing the patterns when multiplying or dividing by 10 or 100. Can they answer this?

$$67.8 = 6.78 \times ?$$

$$? \div 100 = 70.8$$

Half term Times table challenge:

What is their highest score on Hit the Button on as many different times tables as they can.

E Safety Cafe

Thank you so much for those who came to the E safety Café this week. For those who couldn't make it, we explored what we like about the internet and the problems that we encounter. To help us really think about it Jackdaws have entered a competition with Childnet (It's a great place to go to help with keeping your children safe online!). The challenge is to produce a 60 second film based on the following:

We want an internet where we're free to...

The prize is pretty cool too! Sure the school gets a DSL camera but that's not the good part. The Childnet Film Competition Finalist's Event is all about the young people who take part. Here they get to meet all the other finalists and see their film on the big screen at the British Film Institute before finding out where they have placed in the competition. As you can imagine, they're quite excited about this. Here's a link for you to have a look at to learn more.

All I can say is *GOOD LUCK* budding Spielbergs!
