

## Summer Term Week 11

Hello everyone,

### Home Learning

The final lesson plans are now available on the Bawburgh website for both literacy and maths. Although we will not be loading any new lessons over the summer holidays, the work that is currently there will be available if you would like to continue to access it. Further the links I have provided for various other sites which offer different learning opportunities will be available too. I know that my kids are looking forward to doing some of the experiments from the different Science links I've loaded up. As ever, if I can be of any further help with home learning, please don't hesitate to contact me via Reception.

### Accelerated Reader

I am delighted to inform you that Accelerated Reader will continue to be available for the class during the summer holidays. I have been blown away by the amount of reading the class has done during Lockdown and I would have hated it if the class couldn't continue to add to their impressive totals. For those who are still working towards a target, this gives you that extra bit of time to get there. Also, if your child has achieved your Gold but has yet to have a platinum target set for them, I will be in touch very shortly with a new goal. Don't worry, all the points earned since the gold was achieved count towards the new target.

I am sorry that we won't be able to provide books during this time but if you are a member of the Norfolk Library, they're offering an electronic service to download books free of charge.

### Into Opera

Thank you to all those who were able to participate in the Zoom sessions on the 14th of July. Don't worry if you couldn't make it as there are activities available on the school's home page for your children to attempt. If they do have a go at these, it would be great if they could be forwarded to me as I can share them with the team who are heading up this exciting project. If I could ask for the work by Monday of next week that would be great.

Kind regards  
Stitch
