

Good morning,

Thank you to all who completed the access to remote education google form that went out last week. Those of you who met the criteria and asked for the school to apply for additional mobile data on your behalf, this has been requested today.

I have just been made aware that two further mobile network providers have joined the initiative, O2 and Vodafone. They join, EE, Sky Mobile, Smarty, Three, Tesco Mobile and Virgin.

If you meet the following criteria:

## 1. Check who is eligible for extra mobile data

You can request extra mobile data for disadvantaged children who:

- have no broadband connection at home
- cannot afford additional data

One of the following must also apply. They are children:

- **in years 3 to 11 and whose face-to-face education is disrupted (in my opinion this is everyone at home in KS2)**
- who are [clinically extremely vulnerable](#) and need to shield on current official advice (this could be from a doctor or hospital consultant)
- who live in a household that's been advised to shield because a family member is clinically extremely vulnerable
- who cannot attend school – even though theirs is open – because restrictions prevent it

and would like the school to apply for additional data, please contact the school office with the following information:

- Full name of account holder
- Mobile phone number
- Mobile Network
- Whether you are pay monthly or pay as you go.

The DfE have also asked that you read this privacy notice:

<https://get-help-with-tech.education.gov.uk/guide-to-collecting-mobile-information/privacy>

If you have any questions please do not hesitate to contact the school.

Best wishes

Carla Stedman

# DfE Additional Mobile Data Initiative

Good morning,

Thank you to all who completed the access to remote education google form that went out last week. Those of you who met the criteria and asked for the school to apply for additional mobile data on your behalf, this has been requested today.

I have just been made aware that two further mobile network providers have joined the initiative, O2 and Vodafone. They join, EE, Sky Mobile, Smarty, Three, Tesco Mobile and Virgin.

If you meet the following criteria:

## 1. Check who is eligible for extra mobile data

You can request extra mobile data for disadvantaged children who:

- have no broadband connection at home
- cannot afford additional data

One of the following must also apply. They are children:

- **in years 3 to 11 and whose face-to-face education is disrupted (in my opinion this is everyone at home in KS2)**
- who are [clinically extremely vulnerable](#) and need to shield on current official advice (this could be from a doctor or hospital consultant)
- who live in a household that's been advised to shield because a family member is clinically extremely vulnerable
- who cannot attend school – even though theirs is open – because restrictions prevent it

and would like the school to apply for additional data, please contact the school office with the following information:

- Full name of account holder
- Mobile phone number
- Mobile Network
- Whether you are pay monthly or pay as you go.

The DfE have also asked that you read this privacy notice:

<https://get-help-with-tech.education.gov.uk/guide-to-collecting-mobile-information/privacy>

If you have any questions please do not hesitate to contact the school.

Best wishes
