Covid Now that all guidance has been withdrawn I thought that I would share with you our school's policy (Norfolk's) on Covid in schools:

- If your child has [symptoms of a respiratory illness](#), and a high temperature, and you feel they are not well enough to attend school, stay at home and avoid contact with people until they are well enough to resume normal activities and no longer have a high temperature (and no longer need medication to reduce a temperature).
- [Children and young people \(aged 18 years and under\) who have mild symptoms of a respiratory infection](#) such as a runny nose, sore throat, or slight cough, who are otherwise well, can continue to attend their education setting.
- Adults and children who have experienced diarrhoea or vomiting should stay away from school for two days after symptoms have gone.
- If you have access to tests and [test positive for COVID-19 and are an adult](#) you should stay at home and avoid contact with other people for at least 5 days after the day your test was taken (or longer if you are still poorly/have a temperature), which is when you are most infectious. Or for 3 days [for children and young people aged 18 and under](#) (or longer if you are still poorly/have a [high temperature](#)). More detail is available on [GOV.UK](#).
- Children and young people who usually go to school, college or childcare and who live with someone who has a positive COVID-19 test result should continue to attend as normal. There is no need to isolate.

Regular asymptomatic testing ceased in most mainstream settings in February and from 1 April is no longer recommended in any education or childcare settings, including in SEND, alternative provision and children's social care settings.
