Dear Parents and Carers

Now that the Federation has been in place for over a year, we have been looking at the Values and Vision that we have. Whilst each school will still retain its individual school values, we feel that having Federation values is important in order to underpin the work that we do as a Federation.

After much deliberation, the five values that we feel best represent our Federation are:

- Community
- Respect
- Learning
- Aspiration
- Resilience

Using these, we have created a Vision Statement for the Federation:

United as a community, our federation aspires to nurture resilient learners and to provide an enjoyable and enriching school experience where children thrive and develop a lifelong love of learning.

The Federation Values and Vision have been shared with all staff and with the student leaders from each school. Feedback has been positive from both groups and we have taken into consideration the children's views on the order of the values. We are now sharing these with you, our families, as it is important that you also feel that the values and vision represent our aims as a Federation.

We would welcome any feedback you may have. Please use the following link to access a short questionnaire where you can record any feedback.
